The receipt of money by the payee (recipient) depends on the agreement between the PSP of payee and the payee. Client agrees that we may set other deadlines for performance for International money transfers (non SEPA transfers), which shall be notified to Client on the website for the Service or in the online account.

(iv) Deadline for performance of Domestic money transfers: we shall debit the balance of Client in the respective domestic currency and shall execute the order after receipt of confirmed payment order at the latest by the end of the next Business day for payment orders for Domestic transfers received by us until 12:00 pm in a Business day. Payment orders for Domestic transfers, received by us after 12:00 pm or in a day, which is not Business day for us, shall be executed by us at the latest by the end of the next Business day, following the Business day in which the payment order is received by us. The receipt of money by the payee (recipient) depends on the agreement between the PSP of payee and the payee. Client agrees that we may set other deadlines for performance for Domestic money transfers, which shall be notified to Client on the website for the Service or in the online account.

(v) Deadline for performance of payments under Standing orders: we shall debit the account specified by the Standing order on the due date for execution specified in the Standing order. The above rules for deadlines apply accordingly.

5.5 Client may submit Standing orders for money transfers online via Client's account as it is provided and within the limits allowed by the Service. Client has to specify the account, which has to be debited, frequency, amount of the payments, currency balance to be debited, beneficiary's payment details (names, account number/IBAN and other as requested by the Service) start date and expiry date of the Standing order. Client understands and agrees that OTP may be requested by the Service upon setting up of the Standing order and not upon execution of the future transfers from the Standing order, which will be executed automatically without need of entry of OTP.

5.6 Upon setting up the Standing order Client can see our applicable fees in the Tariff. However, we may amend the Tariff as allowed by this Agreement and the law, and this will not suspend or terminate the Standing order automatically and the new fees will apply for the Standing order as of the moment of their entry into force. The funds in the account to be debited for execution of the Standing order have to be sufficient to cover the amount to be transferred and our applicable fees. In case the funds in the account to be debited for execution of the Standing order are not enough to cover the amount of the transfer and/or the applicable fees, we shall perform automatic currency conversion at the currency exchange rate for the date of the conversion with the available funds in other sub-accounts in the Client's main account in order to complete the transfer. We shall not execute a specific transaction if there is not enough funds in the Client's account, for which we shall not be liable for whatsoever damages or compensations.

5.7 Client is entitled to withdraw a Standing order before the expiry date has come into effect via Client's online account with entry of valid OTP and as provided by the Service. Client understands and agrees that all payments executed by us according to the Standing order until the date of the withdrawal or expiry date are irrevocable and correctly executed by us and we shall not be liable for unauthorized transactions.

5.8 Client acknowledges and agrees that a payment order, including from a Standing order, has been executed correctly by us,

even if Client has submitted a payment order with incorrect data, and as a result of this, the money transfer has not been successful and/or has been received by wrong payee and/or was returned to us, as a result of which Client has to cover the charges for the return, reversal or cancellation of incorrect payment order.

## **6. Payment transactions with Cards, issued by us:**

6.1 If we have issued Card to Client, Client or authorized cardholder may make payment orders and transactions with the Card, linked to Client's account and from the e-money balance in the account. The Card must be activated as instructed by us. Card must be signed by Client. The payment transaction may be payment for Goods and Services on POS at Merchants accepting the Card as payment method, or in Internet, or ATM withdrawals or other, as indicated by us in Tariff or on the website for the Service.

6.2 The payment order executed with Card will be received by us in electronic form. The Client's consent for execution of the payment transaction with Card becomes irrevocable and the payment order becomes irrevocable when Client presents the Card for execution of the transaction and: (a) the chip or the magnetic stripe of Card is read by the ATM or POS device and/or a valid PIN and/or Client or authorized cardholder signs the receipt from the device; or (b) by giving the Card or entering it into a terminal and reading of its chip on a self-service terminal; or (c) by entering the data of Card, such as the 16-digits number, validity date or CVC2 code in the Internet; or (d) by providing the card data (number, validity, CVC2) to the provider of goods or services and authorizing him to use it for payment of the respective service by fax, telephone or other communication device.

6.3 Card, which has been personalized with the names of a cardholder, must be used only by the cardholder to whom the Card is issued. Card, which has not been personalized with names of cardholder, may be used by Client or third parties, to whom Client provides or makes available the Card for which Client is fully responsible. The Card is linked to the account of Client, who has ordered or activated the Card, and provides access to e-money in Client's account, unless otherwise agreed with Client.

6.4 The spending limits with Cards are set out in the Tariff. To minimize the risk from losses and/or unauthorized transactions with Card, Client must set even more strict limits on Cards, as the Service allows via the online account and manage the security of the Card, as allowed by the Service, via the online account, Mobile App or SMS commands, available in the online account. Requests for blocking and unblocking of Cards may be made by the Client of the account (main cardholder) or by the cardholder of Card, personalized with names of such cardholder (cardholder of additional Card).

## **7. Refusal, reversal of unauthorized transaction and reversal of incorrect payment orders:**

7.1 If we refuse to execute a payment order, the refusal and, if possible, the reasons for it as well as the procedure for correcting any factual mistakes that led to the refusal shall be notified to Client, unless prohibited by other relevant EU or national legislation. We shall provide or make available the notification to Client via email or via the online account at the earliest opportunity. We may charge a fee for providing additional information for such a notification if the refusal is objectively justified.

7.2 In the event of unauthorized transaction or incorrect payment order, the payment transaction is deemed to be correctly executed by us in accordance to EU legislation and national legislation. Client, or a person explicitly authorized by Client, may submit a Request for reversal of unauthorized transaction or Reversal of incorrect order to us via email, without undue delay and within 30 days after Client has known for the transaction or no later than a longer period from the debit date, provided in applicable national legislation. This term shall not release Client from Client obligation to notify us immediately and without delay in case of loss, theft, misappropriation or unauthorized use of Identifying Credentials and/or Card/s and to take all preventive and security measures as allowed by the Service or by us to limit the risks and damages. Client being not a Consumer cannot claim that a transaction is not authorized, because of lack of Client consent for the transaction.

7.3 we will assist the Client to a reasonable extent for reversing the unauthorized transaction or incorrect payment order as required by EU and applicable national law. In case of incorrect payment order, such as wrong account identifier, wrong name, wrong BIC, wrong name of bank of the payee, wrong amount, or other incorrect data, submitted by Client, we may assist the Client to submit a new and correct payment order if we have not executed the incorrect payment order, for which we may charge the Client a fee. In case we have executed the incorrect payment order as per the Agreement and the law, the Client can to make a request for reversal via email to us and we will initiate a reversal procedure, for which we will charge Client with the respective fee. We shall cannot guarantee the outcome of the reversal procedure, and even if the amount is reversed to Client's account the other banks (the bank of the payee or the correspondent banks) may withdraw from the amount their own fees for reversal and/or investigation or similar, which is beyond our control.

7.4 In case of unauthorized transaction we shall conduct a procedure for proving authentic and correct execution of payment transaction and if this procedure is completed in favor of Client, we shall reverse the operation and return the amount to Client' account, less the applicable fee in the Tariff, within the deadline provided in the law.

7.5 Client agrees that we may not be always able to reverse the amount of unauthorized transaction or incorrect payment order, in cases, where the deadlines for chargeback or reversal procedures before the Card Organizations have expired or in other cases per the rules of the respective Card Organization, in which cases we shall not owe Reversal or compensation to Client.

7.6 When Client receives a payment:

(a) Client is liable to us for the full amount of the payment plus any Fees if the payment is later invalidated for any reason. In addition to any other liability, if there is a Reversal, or if Client loses a Chargeback or Claim, Client will owe us an amount equal to the Reversal, Chargeback or Claim and applicable fee as per the Tariff and other charges related to the Reversal, Chargeback or Claim. We shall debit Client's account to recover any amounts and fees, due by Client in connection to Reversal, or Chargeback or Claim or Reserve, immediately and without prior notice;

(b) in case Client receives a payment to a sub-account, which the Client has disabled via the Service, we shall not be liable for crediting the Client's account. In such case we shall place the credit transfer as "pending" and shall request from the Client via e-mail approval to credit one of the other sub-accounts in the same currencies or other currencies and if there is no approval via e-mail by the Client, we shall return the amount of the transaction to the original payer and may charge the Client with a fee for reversal.

7.7 Client agrees that in case a payment transaction is not approved for some reason or client wishes to refund full or partial amount, then the following rules shall apply:

(i) Reversal or refund of full amount of transaction - the amount of the transaction is refunded in the original type of currency; or

(ii) Partial reversal or refund of amount of transaction - the amount subject to reversal or refund is refunded in the currency of the transaction; or

(iii) If payment has been made with Card via debiting of linked Funding Instrument - the amount subject to reversal or refund is refunded in the currency of Card; or

(iv) If payment has been made with e-money via debiting of linked Funding Instrument - the amount subject to reversal or refund is refunded to Funding instrument if possible, or if not possible is refunded in Client's account in the currency of the transaction.

#### **7.8 Chargebacks, Reversals, Refunds or Claims, related to the acquiring services:**

7.8.1 Client acknowledges and agrees that Client may become liable to us for the full or partial amount of any payment, received by us or Client from the Service plus any fees or charges if the payment is later invalidated for any legal reason, including but not limited to charge back or reversal of a payment transaction, or chargeback of card-not-present transaction for payment via the Links or Requests for payments, or on other legal ground. In addition to any other liability, if there is a reversal, or if Client loses a chargeback or claim, Client will owe to us an amount equal to the reversal, chargeback or claim and applicable fee as per the Tariff and other charges related to the reversal, chargeback or claim.

7.8.2 We are entitled to withhold amounts to be paid to Client or debit amounts from Client's account, equal to the amounts subject to chargeback, reversal, refund, any claim related to Pre-authorization transactions or MOTO or e-Commerce or other claim, including the fee owed by Client and any fees and compensations paid to the Regulators, during the time of the procedure or later on, notwithstanding if the amounts have already been credited to Client's Account. Depending on the outcome of the claim against us or the Client, we are entitled to:

(i) In case of successful chargeback, reversal, refund or claim, to reimburse the funds to the Payer or cardholder (or Card Organization) or other appropriate third party and charge Client for these amounts, including applicable fee, by deducting them from the amounts due by us to Client or by debiting Client Account. In such case, we shall be entitled to debit the e-money balance first in any currency and any account of the Client opened with us, and then the Reserve, if there is no sufficient funds in the e-money balances. Alternatively:

(ii) In case of charge back, reversal, refund or claim, which have been decided in a non-appealable way as not successful, to release the withheld or blocked amounts to Client.

7.8.3 Client acknowledges that the validity of a chargeback, refund, reversal or claim will be determined by the relevant Card Organization or other third party payment service provider and we will have no discretion on the matter. We are not liable to Client in respect of any reimbursement to cardholder (or Card Organization), their payment service provider or other

appropriate third party because of a chargeback, refund, reversal or claim.

7.8.4 In case a cardholder escalates a chargeback or similar procedure before the Card Organization, under the rules for arbitration procedure of the Card Organization, we shall inform Client on this and shall cooperate with Client in such procedure as per the Regulations. All costs or fees incurred by us in such procedure, including the costs or fees, paid by cardholder, in case of loss of the procedure, shall be on account of Client.

7.8.5 Client acknowledges and accepts that we may restrict or suspend the use of the Service and/or terminate this Agreement immediately and without advance notice in the event that the levels of chargeback, refund, reversal or claims connected with the Client website or offers are, in our sole opinion, excessive.

7.8.6 In case we have reasonable doubts or we receive information from Card Organizations or other Regulators for payments with stolen cards, false cards, or unauthorized payments with cards or other irregularities in connection with Client website, we have the right to withhold or block all due amounts to Client, including in Client Account and to start an investigation without prior notice to Client. Client is obliged to cooperate us and present us all requested information related to the alleged fraud or unauthorized payments. We have to complete our internal investigation within a reasonable period and has to inform Client on the outcome. Client acknowledges and agrees that in some cases of violations we may be obliged to report Client websites to registers of Card Organizations or other Regulators and terminate the Service for the Client, for which we shall not be liable.

### **7.9 Other rules for use of the Service:**

7.9.1 Without prejudice to the above, Client agrees and acknowledges that the reporting and payment of any applicable taxes arising from use of the Service and which by law are obligations of Client, is Client's exclusive responsibility and liability. Client hereby agrees to comply with any and all applicable tax laws.

7.9.2 We may at our discretion block the possibility for specific types of payment transactions in principle or in countries or in some cases, in order to comply with risk and compliance requirements. We may, at our reasonable discretion (for example, for fraud, risk and compliance reasons) impose limits on the amount of money Client can withdraw, transfer, receive or fund for a certain period of time or for the whole period of use of Service.

7.9.3 Client acknowledges and agrees that: (a) The sales of Goods and Services are transactions between the Merchant and Client and not with us, or any of our Branches, Agents or affiliates, unless we are expressly designated as a Seller (Merchant) in the transaction (for example, purchase of other prepaid cards, such as GIFTCARD or other). We are not liable for the performance of obligation of Merchants.

7.9.4 We shall provide to Client information on balance/s, IBAN numbers and other unique account identifiers, information on acquired and settled transactions, information of payment transactions, history of transactions, status of account, status of other payment instruments, , notifications to Client and other important information via email to Client's registered email or via the online account of Client, via SMS to the registered mobile phone of Client or via the website for the Service.

7.9.5 Client will be able to view Client transactions free of charge in Client's account transaction history, which is updated regularly, and Client agrees not to receive paper statements. We shall send to Client registered e-mail on a monthly basis a link to the Client's account to check its balance and/or transaction history. Upon Client request we may, upon our discretion, provide Client with additional statements, paper or otherwise, of the transactions but in this case, we may charge Client a reasonable administration fee. We may charge Client a fee for other information services, different from the standard information services, provided via the Service or additional services provided by us, as provided in the Tariff.

7.9.6 In case Client wishes to use an alternative method for two-factor authentication and receipt of one-time password, as may be required by the Service, Client has to select this option from Client's online account. Transactions, operations and activities confirmed with the one-time password, generated via each of the available two-factor authentication methods, supported for the Service, will be considered as valid and binding on the Client.

7.9.7 Client may add sub-accounts in the same currency or different currency and may disable them via the Service. In case the Client has disabled a sub-account via the Service, Client may not enable it again for a future use.

7.9.8 Upon request of the Top-Up User the Client must initiate top-up operation in case Top-Up Service is enabled. The Client agrees that for the top-up operation we shall debit the client's account with the amount of the top-up. We shall process the top-up operation only if the Client has available balance in its account to cover the amount of the top-up. After a successfully processed top-up we may credit the Client's account with a commission. The amount of the commission may vary depending on the mobile operator/service provider and the Client understands that we do not determine this amount and is not liable if there is not a commission paid by the mobile operator/service provider.

7.9.9 The Client is allowed to collect payments from Top-Up users only as provided by the Service. The Client must issue a receipt for the Top-Up operation in electronic or paper form in compliance with the applicable law. The Client is solely responsible for collecting the payments for the amount of the top-up from the Top-Up users and the Client is not entitled to a reversal from us for the amount of processed top-up operation in case there is no payment from the Top-Up User.

7.9.10 We are not responsible before the Top-Up User or the Client for loading of money into vouchers and prepaid mobile numbers, which is an activity performed by the Mobile Operator/service provider or its agents and therefore we are not liable for whatsoever compensation in this relation.

## **8 Reserve, Hold/Pending and other Protective Actions:**

8.1. We shall be entitled to withhold and keep as a Reserve, securing performance by the Client of Client's obligations under this Agreement and the applicable laws and Regulations, a sum equal to the amount of a whole or part of any type of transaction/s and/or a Reserve Percentage, as set in the online account of the Client for the Service and shown to the Client prior to entry into Agreement or in another Commercial Agreement (if applicable). The Reserve percentage is as a percentage of the amount of certain or all types of processed card transactions to be settled to the account. The Reserve percentage in case of use of myPOS Virtual or e-Commerce shall be 10% per default (unless otherwise agreed by the Parties when registering for the Service) from all myPOS Virtual or e-Commerce transactions. The Reserve percentage in case of use of MOTO or pre-authorizations or other risk transactions shall be 10% per default (unless otherwise agreed by the Parties when registering for the Service) from all card transactions to be settled to the account, including transactions of physical POS, virtual POS or e-commerce. The Reserve may be set in the online account of the Merchant for the Service. If the amount of the Reserve is depleted or diminished for some reasons, we shall be entitled to withhold amounts from all types of credit transactions to the account of the Client, to replenish the amount of the Reserve or Hold. The reserved amounts will be reserved by us for a period up to 1 (one) year after authorization of the transaction or a longer period if this is necessary for the protection of legal interests of Satabank or of the Acquirer. All such reserved sums will be displayed in Client online account for the Service as Reserve or Reserved. Such amounts do not represent electronic money and the client may not use, redeem or buy back them until the reserve period elapses and the amounts are credited to the Client's balance of e-money. The funds will be withheld with operation Withhold Reserve and shall be released with operation Release Reserve. The release of the respective reserved amounts shall be performed once per day or at other time intervals, at the end of the Business day.

8.2. We shall determine the Reserve amount or percentage depending on the level of risk of Client, geographical locations, type of business and other factors. We shall regularly check the percentage and amount retained under the Reserve percentage. If in our sole discretion the amount of the retention exceeds a reasonable amount covering the risks, we may:

- (i) release the excess amount and cease to keep it as Reserved and credit it to the Client account or
- (ii) lower the Reserve percentage.

8.3. If in our discretion there may be a high or higher level of risk associated with Client, the account of the Client or usage of the Service and the amount of the Reserve or retention does not correspond to the risks, we shall be entitled to unilaterally:

- (i) increase the Reserve percentage without prior notice, and/or
- (ii) prolong the period for which the sums will be kept as Reserved for more than 1 (one year) and/or
- (iii) request a bank guarantee or a corporate guarantee or another additional security from the Client, and if not provided, terminate the Service, without liability or compensation for damages.

We may change the terms of the Reserve at any time and shall provide the Client with a notice on the changes via e-mail in reasonable time. In case Client does not agree with the changes of Reserve, Client has the right to terminate this Agreement as stipulated below in this Agreement.

8.4. If upon our discretion there may be a high level of risk associated with Client account or usage of the Service or Client has breached or is breaching the Agreement or any laws or Regulations, in addition to the Reserve, we shall also be entitled, in our sole discretion, to place a Hold on the funds held by the Client as Balance of e-money or to withdraw and keep funds from authorized transactions, which have not been yet credited to the Client's account for e-money. In relation to the Service, this may include (without limitation) an unusual level of customer refunds, chargebacks or other similar. We are entitled to withhold amounts for a period of time, which is reasonably necessary to assess our damages. Amounts which are placed on hold or withdrawn by us for the above reasons will be shown as "Hold/Pending" in the Client's account only for information purposes and only if allowed by the law. Such amounts do not represent electronic money and the client may not use, redeem or buy back them until the reason for hold/withdrawal is rectified and the amounts are credited to the Client's account for e-money.

8.5. If upon our discretion there may be a high level of risk associated with Client account or usage of the Service or Client has breached or is breaching the Agreement or any laws or Regulations, we are entitled to take other reasonable actions, which we determine are necessary to protect against the risks associated with the Client or Client's account, including, but not limited to requesting additional collateral from Client, such as a letter of credit or a personal guarantee, imposing higher limits on the amounts accepted via the Service, or limiting the functionality or number of devices or cards or other parts of the Services, including blocking parts or whole of the Services, such as myPOS, myPOS Virtual or Card or Account, blocking the access to the Client's account or blocking only the possibility for payment orders and use/redemption of e-money or other. We may contact the customers of the Client, on Client's behalf, in the event that we are investigating potential fraud. If we have blocked/disabled myPOS or Card, for such reasons, Client is obliged to return to us or a person specified by us via post the blocked payment device, such as myPOS or myPOS Business Card, on account of Client. We may withhold money from Client until due performance of this obligation.

8.6. In order to determine the risk associated with Client's account or use of the Service, we may request at any time, and Client agrees to provide promptly any information or documents about the Client or Client's business, use of the Service, use of the account or Card, operations or any other information about the Client. We shall reserve the right to reassess Client's eligibility for any account, product or Service if Client's business is materially different from the information provided by Client upon subscription for the Service.

8.7. Client liability is not limited to the amount of the Reserve or Hold/pending amounts. We are entitled to debit from the amounts withheld or from the balance of e-money of the Client amounts, for which we have been assessed by Regulators or Card Organizations or amounts claimed by the Acquirer of Satabank or damages suffered by us, including but not limited reputational damages, in relation to the Client or non-compliance of Client with this Agreement, the laws or Regulations. We shall inform the Client on such debit operations in reasonable time via e-mail and without delay, unless it is unlawful to inform the Client or it is against our legal interests.

## **9. Payment instruments security features. Security measures and Safety Requirements:**

9.1 we have provided to Client personalized security features for using all payment instruments, included in the Service, such as, but not limited to, password, OTP (one-time passcodes) received via SMS or generated via special Mobile applications for access to online account and making a payment order, embossed number of the card, CHIP & PIN, CVC/CCV or similar code of the card, password for Mobile Application and others, which are necessary tools for preserving the security of the payment instruments of Client. The mobile POS terminal is PCI DSS compliant and is certified by the Card Organizations.

9.2 Client is able to control the security of the payment instruments, by enabling or disabling them for certain transactions, such as Internet transactions, ATM cash withdrawal or other, receipt of SMS or email after each transaction with Card, and imposing limits, which are more stringent than our default spending limits via the Service (online account, Mobile App or SMS commands via registered mobile number or in other available ways). Client agrees to use these security control mechanisms available via the Service in order to minimize the risks of unauthorized access to Client's account and unauthorized transactions. Client must use the functionalities of the Service for disabling cards for Internet transactions and cash withdrawals only with one click or with SMS and enabling such Internet transactions or cash withdrawals only when Client wishes to make such transactions.

9.3 Client agrees to use the Client's credentials, such as username and password and other personalized security features for Client's payment instruments only in accordance with this Agreement and with the law. Client must not provide and must not allow disclosure of the personalized security features to a third party even where the Card or payment instrument is PIN based, because even in this case Card or payment instrument can be comprised and result in unauthorized transactions, for which Client is fully liable. Client must not disclose the credentials for access to a Business account (username and password), because they may be identical with the credentials for access to Client personal account and there is a risk of unauthorized transactions. The breach of this obligation is breach of Client's obligation for protection of personalized security characteristics of payment instrument and Client will be fully liable for unauthorized transactions as a result of Client's breach of this obligation willfully or with gross negligence.

9.4 If Client is using the Service in a business capacity or as a Client of Business account, Client agrees that:

(i) all employees, agents, representatives and others having access to Client Credentials or personalized security characteristics of payment instrument/s of Client, will be considered as properly authorized to use Client account and/or make any payment orders via all payment instruments and perform all actions to which Client is entitled and will legally bind the Client, business, partnership or other legal entity concerned;

(ii) Client or a person explicitly authorized by Client has the right to authorize users of Business account of Client and/or payment instruments related to it, whose rights for ordering payment transactions, reversal, receiving of information, authorizing or removal of other users and other rights are defined by us on the website of the Service or in the online account and can be additionally individualized by Client or a person explicitly authorized by Client according to the functionalities of the Service.

(iii) Each payment order from authorized user will be considered as approved by Client and irrevocable per the rules on Receipt of Payment Order and Irrevocability above. In case Client wishes to limit rights for access to the Business account of certain authorized users, the legal representative of Client or a person explicitly authorized by Client per our requirements, can perform this operation via the online account or send to us a request duly signed by Client via the Client's registered e-mail.

9.5 Client acknowledges and agrees that all Cards linked to Client's account are providing access to the e-money in Client's account and Client shall be liable for all transactions and charges arising of the use of Cards, associated with Client's account.

9.6 In case of lost, stolen, compromised, blocked, not activated or damaged card, or PIN, or CVV or unauthorized use of card or PIN or CVV, Client must inform us or the issuer of the card without delay by sending e-mail from the Client's registered e-mail for the Service to the e-mail published on the website of the Service or via the Contact center at the number printed on the back of the card or at the number published on the on the website of the Service. If Client believes that Client's account or other payment instruments have been used in an unauthorized manner or in case of unauthorized transactions, Client has to contact us without undue delay. Client agrees to notify us via Client's registered e-mail or via the Contact Center, as explained above, immediately and without delay in case of loss, theft, misappropriation or unauthorized use of credentials and/or personalized security features and/or payment instruments, including, but not limited to online account, mobile application, POS terminal, cards and others, and to take all preventive and security measures as allowed by the Service, including to disable the compromised payment instruments via the Service, or inform us without delay and limit the risks of unauthorized transactions and damages. Client also agrees to notify us without undue delay and in the same manner of any other breach of security regarding the Service of which Client has knowledge.

9.7 we may suspend the use of the Service in part or wholly, including block the Card, or account, where it suspects that their security may have been compromised or that unauthorized or fraudulent use has taken place. We shall inform Client in advance or, if that is not possible, immediately after, of the suspension of the use of the Service, specifying the reasons for the suspension, unless such provision of information would compromise reasonable security measures or be otherwise unlawful. We shall provide the Service or replacement credentials or personalized security characteristics to Client, as soon as practicable after the reasons for the suspension cease to exist and on condition that Client has performed all obligations towards us.

9.8 More information on security measures, which Client must and is able to take, is provided on web page for the Service or in the online account.
